

GADSDEN STATE COMMUNITY COLLEGE Pest Control Services Information

Sand Mountain Pest Management, LLC has been awarded the pest control services bid. They do not use paper service logs. They have handheld devices which will be used in lieu of the paper service logs. We appreciate your help in having a representative of each building sign the handheld device of the Sand Mountain Pest technician after services have been rendered.

The schedule of services for our campuses as of now are scheduled to be rendered on the dates as listed below and to be completed between 8 a.m. and 4:30 p.m. on said dates. Please make sure there will be someone available in your building to sign for these services.

Wallace Drive Campuses – 2nd Tuesday & Wednesday of each month
East Broad & Valley Street Campuses – 3rd Tuesday & Wednesday of each month
Cherokee Campus – 3rd Wednesday of each month
Ayers Campus – 4th Friday of each month (Time of day will vary)

The below services are covered in **Non-Food Service Areas**:

- Interior Treatments – Bait, Traps, and Crevice Spraying
- All floors of every building shall have insect monitors installed as part of the service. These insect monitors shall be inspected monthly.
- Each building shall have an exterior treatment each month. The perimeter spraying is within 5' from the building. An exterior ant bait station shall be placed on each side of all buildings serviced and inspected monthly.
- Spider webs and wasp nests shall be treated around all entrances monthly. Webbing and nests shall be removed on a monthly basis.

If the above services are not being rendered or if there is a pest control issue that needs addressed, please enter a work order on the Fixit Request Portal.

<http://fixit.gadsdenstate.edu/portal>

These requests will be seen by Cory Carter (Kathy Kendrick) or Wes Wood and they will then e-mail Sand Mountain Pest. Service calls will usually be of an immediate nature, but are not necessarily emergencies. Sand Mountain Pest's response time should be within twenty-four (24) hours of receiving the e-mail from Cory (Kathy) or Wes. Sand Mountain Pest's response time for emergency services should be within five (5) hours.
